USDA ZONES 6-10

FULL SUN TO PART SHADE

WELL-DRAINED GARDEN SOIL

WATER AS NEEDED

UNIQUE BLUSH-COLORED YOUNG
FOLIAGE AND DEEP GREEN-COLORED
MATURE FOLIAGE

Blush Pink nandina is an exciting new version of the old standby Nandina 'Firepower.' Stunning pink new growth sets Blush Pink apart from its rivals. The pink color glows throughout the growing season leading up to a spectacular fall and winter display of bright pink and red foliage. A compact growth habit makes it ideal as a mass planting or a border.
