

Residential Rain Barrel Rebate Program

In order to encourage the conservation of water and to reduce run-off, specifically through the re-use of rainwater, the Town of Fairview has adopted a rebate program for rain barrels installed and utilized on residential properties.

To be eligible, a resident must have an active and up-to-date Town of Fairview residential stormwater utility account.

The program starts on May 4, 2005; therefore, only approved rain barrels purchased on or after that date will be eligible for a rebate.

Applications must be received within 120 days of purchase, and must be submitted on an official completed town rebate form.

All rebates are subject to the availability of funds during any given fiscal year. Requests will be processed and funded on a first-come, first-served basis.

Approved rebates shall be given in the form of a credit to the applicant's stormwater utility account.

Rebates will be in an amount equal to the purchase price or \$50.00, whichever is less.

No more than two rain barrel rebates per physical address shall be granted.

Residential Rain Barrel Rebate Form

Getting your rain barrel rebate is easy. Simply select, purchase, and install a new rain barrel. Then, complete and mail (or drop off) this rebate application form, along with original copies of your receipt and proof of purchase. A town representative will visit your site within about thirty days to ensure the rain barrel is properly installed and functioning. If approved, your rebate, up to \$50.00, will show up as a credit on your stormwater utility bill.
